"Go next level" with our training for the mobile repair engineer!

Do you want to take your skills to the next level? Look no further because we offer various professional training programs for both **beginners** and **advanced** learners.

"Whether you want to learn more about mobile repair in general or are specifically interested in micro soldering, we're here to help you take the next step.

With our training programs, you can not only enhance your own skills but also elevate your colleagues' expertise, setting yourself apart from other repair technicians. So, what are you waiting for? Start professionalizing today and become a certified engineer because these training programs are officially recognized by Techniek Nederland and OFED."

mobile repair starts **here.**

As a repair shop owner, you know better than anyone that there's always room for more business. That's precisely where our training programs can assist! Enroll in the training that suits you and learn how to attract and retain more customers by providing a repair service you can confidently offer. Because, let's be honest, who doesn't want more revenue and satisfied customers?

L1- L2 Basic mobile repair training.

Do you want to learn smartphone/tablet repair or take your skills to the next level? Then this training is perfect for you. It is designed for anyone who is still (relatively) inexperienced and wants to learn everything in 4 or 5 days so that you can confidently tackle almost any L1/L2 repair. You don't need prior experience; Justin Ashford starts from the beginning. If you do have some experience, you may receive different assignments. This way, the training is always tailored to your experience, and your skill level will always improve.

- A 4- or 5-day training in Arnhem, conducted by repair professional Justin Ashford, optionally with Dutch-speaking guidance
- Every day includes a comprehensive lunch
- The Art Of Repair certificate, officially recognized by Techniek Nederland and OFED
- 1-year free ZXW license worth €58 (software for diagnostics)
- The opportunity to always use our lab for practice and knowledge sharing at no cost.
- **€ 1250,-**

L2- L3 Micro soldering mobile repair training.

Do you want to offer more than just basic repairs (such as screen or battery replacement)? This training is suitable for both repair technicians who want to start with micro soldering and those who already have some knowledge. Trainer Justin Ashford provides you with all the tools to enhance your skills and offers live advice based on your personal abilities. If you already have the basics down, you may receive more challenging assignments during the training. This way, the training is always tailored to your experience, and your skill level will continuously improve.

- A 7-day training in Arnhem, conducted by repair professional Justin Ashford, optionally with Dutch-speaking guidance.
- Every day includes a comprehensive lunch
- The Art Of Repair certificate, officially recognized by Techniek Nederland and OFED
- 1-year free ZXW license worth €58 (software for diagnostics)
- The opportunity to always use our lab for practice and knowledge sharing at no cost.
- **€ 2150,-**

money-back-guarantee: Find that a training doesn't suit you after it has begun, you can stop at the end of the first training day and receive a full refund of your payment!
